🛡 Completed Military Service

📄 Summary

Front-End Developer specializing in building responsive and scalable web applications using React and modern JavaScript (ES6+). Experienced in developing clean and user-friendly interfaces, integrating REST APIs, and optimizing web performance. Focused on writing maintainable, efficient code and delivering high-quality user experiences.

🧠 Skills

- **Frontend Development:** HTML5, CSS3, JavaScript (ES6+), React.js, TypeScript.
- **Styling & UI:** Tailwind CSS, Bootstrap, Flexbox, CSS Grid, Responsive Design, Cross-Browser Compatibility
- **State Management:** React Hooks (useState, useEffect), Context API, Redux.
- **Tools & Workflow:** Git, GitHub, npm Basics, Agile, Code Reviews, Version Control, Docker.
- **Debugging & DevTools:** Chrome DevTools (Performance, Network, Console), Debugging & Optimization.
- **Productivity Tools:** VS Code, VS Code Shortcuts.
- **UI/UX & Principles:** Pixel-Perfect Implementation, Basic Accessibility (a11y).

📁 Projects

Car Marketplace Platform (Graduation Project)

- Built a responsive car marketplace web application for browsing and searching modern and used cars.
- Implemented an interactive chatbot to enhance user engagement and assist with queries.
- Focused on responsive design, accessibility, and performance optimization.

Tech Stack: HTML, CSS, JavaScript, React.js.

Military Colleges Information Website (NTI Project)

- Developed a structured informational website showcasing military colleges and admission requirements.
- Designed a clean and responsive UI focused on usability and clarity.
- **Tech Stack:** HTML, CSS, JavaScript.

Special Forces Information Website (SEF Project)

- Designed and developed a responsive front-end website presenting special forces information and requirements.
- Focused on layout structure, responsiveness, and user-friendly navigation.
- **Tech Stack:** HTML, CSS, JavaScript.

Book Management System (ITI Project)

- Built a web-based system for managing book categories and data using JavaScript.
- Implemented dynamic data handling and core application logic with focus on functionality and structure.
- **Tech Stack:** JavaScript.

👛 Professional Experience

Front-End Developer Intern (Multiple Programs: CodeAlpha, Prodigy, CodSoft, CodeForge, Oasis)

06/2024 – 09/2024

- Developed responsive web interfaces using HTML, CSS, and JavaScript.
- Worked with Git workflow including branches and pull requests.
- Fixed UI bugs and improved performance across multiple tasks (optimized layouts and responsiveness).

🎓 Education

Faculty of Computer and Information, Tanta University

09/2019 – 07/2024

Grade: Good
Graduation Project: A+

🌐 Languages

Arabic – Native/Bilingual

English – Proficient

French – Basic
